Indonesian Gold Mining Company Wilton Resources Completes RTO; To Commence Trading on SGX Catalist On Dec 16, 2013.

Singapore, 14 December 2013 – Shares of Wilton Resources Corporation Limited (“Wilton Resources” or “the Company”), formerly Hartawan Holdings Limited (“Hartawan”) will commence trading on December 16 2013 (Monday), marking a new chapter as a SGX Catalist-listed corporation involved in gold exploration and mining in Indonesia.

The commencement of trading follows the completion of a reverse takeover (“RTO”) of Catalist-listed Hartawan by Wilton Resources Holdings Pte. Ltd. (“WRH”), an investment holding company controlled by experienced entrepreneurs, Mr. Wijaya Lawrence of Indonesia and, Mr. Patrick Ngiam of Singapore.

At an Extraordinary General Meeting (“EGM”) held on 21 October 2013, shareholders of Hartawan approved the issue of 1.5 billion post-consolidation consideration shares, representing approximately 68.77% of the enlarged share capital of 2.2 billion shares, at S\$0.20 each to WRH’s shareholders; and approved the change of name and new corporate identity.

Following the RTO, Mr. Wijaya Lawrence – a successful entrepreneur with mining experience has been named President and Executive Chairman of the Group. Mr Patrick Ngiam – has been named Non-Executive Director.

The RTO marks a transformation of the Company from a property leasing/management and hospitality company to a gold mining firm. Its concessions in West Java have a Total Resources of 1,176,000 oz (36,580 kg) of gold (au) with 557,300 oz (17,333kg) of gold (au) in Proved and Probable Ore Reserves under JORC code.

“This is indeed a proud day for Wilton Resources as we commence a new chapter as a corporation listed on a well-regarded international exchange such as the SGX,” Mr. Wijaya Lawrence said. “As a listed entity with a new strategic direction, we endeavour to enhance and sustain value for our stakeholders and uphold high standards of corporate governance.”

“Wilton Resources intends to continually carry out exploration works such as drilling, to further discover and upgrading of the gold resources estimates. Wilton Resources has also already focused on developing facilities to hasten the gold dore production phase” he said.

Trading in the shares of the Company will commence on 16 December 2013, under the stock code 5F7.SI.
