

OPERATIONAL UPDATE ON THE CIEMAS GOLD PROJECT

The board of directors (“**Board**”) of Wilton Resources Corporation Limited (the “**Company**”, and together with its subsidiaries, the “**Group**”) refers to the Company’s announcements (i) dated 29 February 2024 in relation to the Company’s Unaudited Condensed Consolidated Financial Statements for the interim six months and full year ended 31 December 2023, and (ii) dated 29 December 2023 in relation to the announcement by the Company’s subsidiary on the IDX entitled “Annual Public Expose Report” (“**Announcements**”).

Further to the Announcements, the Board wishes to update that the Group’s main operating unit in Indonesia is facing a country-wide cyanide unavailability. Cyanide is essentially required in the gold mining industry. Consequently, from March 2024, the Group has to slow down its mining and production activities until the pricing and supply of cyanide have returned to normalisation. Meanwhile, the Group is in the process of applying for its import permit and quota to purchase cyanide directly from international cyanide suppliers to better manage its requirements.

The Company will continue to monitor the situation and make appropriate announcement(s) as and when there are material developments. Shareholders and potential investors of the Company are reminded to exercise caution when dealing in the securities of the Company and should consult their stockbrokers, bank managers, solicitors, accountants or other professional advisors if they are in doubt about the actions that they should take.
